

Savvy Tech

Technology and creative studio, Grenada

WEBSITE PROPOSAL

Taxi, tours and auto rentals, *online.*

PREPARED FOR

Wayne Radix
Taxi, Tours and Auto Rentals

PREPARED BY

Savvy Tech
St. George's, Grenada

DATE ISSUED

September 22, 2026

VALID UNTIL

October 22, 2026

A booking-first website for Wayne Radix

Savvy Tech will design, build and launch a mobile-first website that lets visitors book an airport transfer, reserve an island tour or rent a vehicle from Wayne Radix in a few taps. The site is built to win bookings from tourists, cruise passengers and locals, and to be found on Google when they search.

This proposal sets out what we will deliver, answers the questions raised about labour, maintenance, maps, social media and security, and confirms the full investment, with no hidden costs.

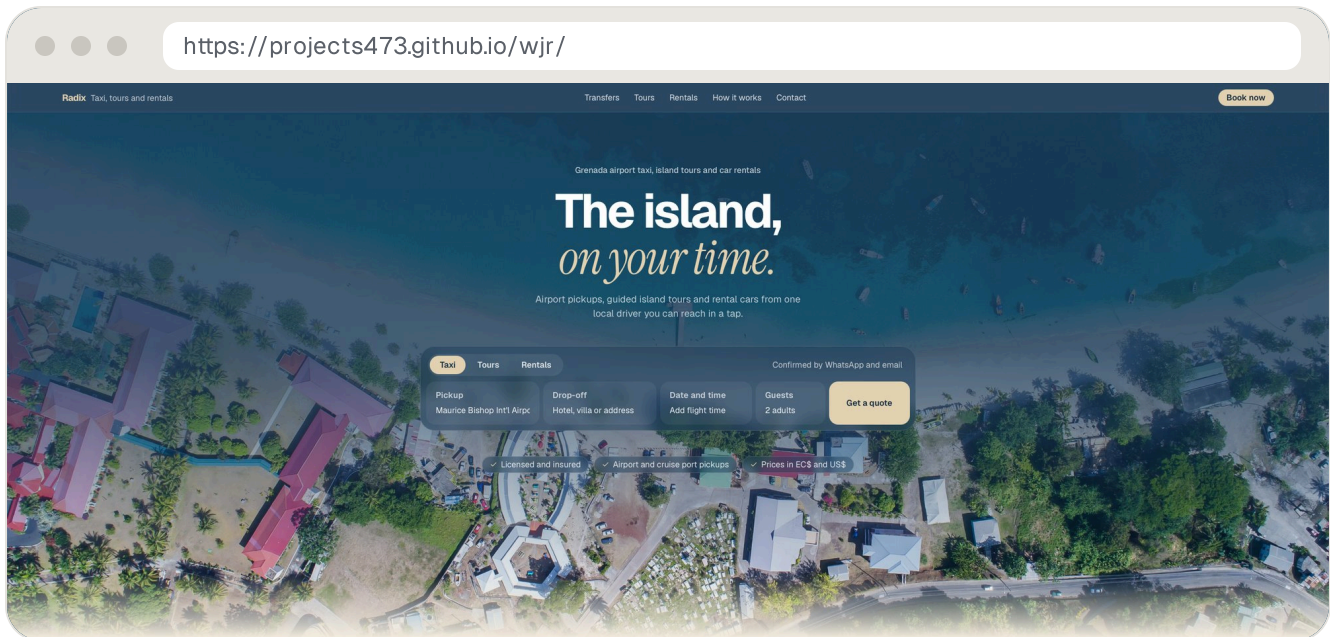

Website build EC\$3,200 One-time, all labour included	Care plan EC\$150 Per month, from launch	Launch 6 weeks From deposit and content	Live demo Online now See section 02
---	--	---	---

Goals for the website

- Take taxi, airport transfer, tour and rental requests online, day or night.
- Show the fleet, tours and rates clearly, in EC\$ and US\$.
- Build trust with reviews, photos, licensing details and clear policies.
- Rank on Google for searches such as "Grenada airport taxi" and "car rental Grenada".
- Give every visitor a one-tap route to Wayne on WhatsApp.
- Cut back-and-forth messages by collecting dates, pickup points and guest numbers up front.

See the website before you commit

We have built a working demo of the homepage so you can see the look, feel and booking flow on your own phone. It uses Wayne's colours of ocean blue, sand and white, and stock photos of Grenada that will be replaced with Wayne's own vehicles and tours.

Demo link

<https://projects473.github.io/wjr/>

What to try in the demo

- Switch between Taxi, Tours and Rentals in the booking panel. Each shows the right fields.
- Filter the fleet by cars, SUVs and vans.
- Press Get a quote. It opens WhatsApp with the booking details already filled in.
- Open it on a phone to see the mobile menu and the Book now bar pinned to the bottom of the screen.

What is included

Everything below is included in the one-time build fee of EC\$3,200.

Pages

PAGE	PURPOSE
Home	All three services at a glance, quick booking panel, reviews and WhatsApp
Airport and Cruise Transfers	Fixed rates by zone, flight tracking details and booking
Island Tours	Tour list plus a detail page for each tour with itinerary, duration and price
Auto Rentals	Fleet with filters plus a detail page for each vehicle with rates and terms
About Wayne	Story, experience, licensing and insurance
FAQs and Policies	Local driving permit, deposits, cancellations, driving on the left
Contact	WhatsApp, phone, email, Google Map, service area and hours

Features

Online booking

One booking flow for taxi, tours and rentals. Every request reaches Wayne instantly by WhatsApp and email.

Availability calendar

Blocks out booked vehicles and tour dates to prevent double bookings.

Fleet and tour manager

Wayne can add vehicles and tours, change rates and swap photos himself, without a developer.

WhatsApp integration

Chat buttons on every page, and booking forms that open WhatsApp with the details pre-filled.

Google Maps and location

YOU
ASKED

Embedded map of Wayne's base and service area, one-tap directions and map links for pickup points.

Social media integration

YOU
ASKED

Links to Facebook, Instagram and TikTok, plus rich link previews when the site is shared on WhatsApp or Facebook.

SEO integration

YOU
ASKED

Keyword-targeted pages, Google business data, sitemap, Search Console setup and Google Business Profile.

Security

YOU ASKED

HTTPS encryption, spam-protected forms, no card details stored on the site, and backups.

Reviews and trust

Google and TripAdvisor reviews, licence and insurance details beside every booking button.

EC\$ and US\$ pricing

Rates shown in both currencies for overseas visitors.

Mobile-first and fast

Designed for phones first, with images that load quickly on island mobile data.

Analytics and training

Visitor and booking tracking, plus a handover session so Wayne can manage the site confidently.

Optional add-ons

Not included in the build fee. Available on request and quoted separately before any work begins.

- Online card deposits through a payment gateway such as WiPay or PayPal
- Logo and brand identity design
- Professional photography of vehicles and tours
- Additional languages or pages beyond the scope above

Labour, maintenance and integrations

Is labour included in the price?

YES, FULLY INCLUDED

The EC\$3,200 build fee covers all labour from start to finish: planning, design, development, content setup, integrations, testing, launch and handover training. There are no hourly charges and no surprise invoices.

Two rounds of design revisions are included. Any new work outside the agreed scope will be quoted in writing and approved by Wayne before it starts.

What are the monthly and annual maintenance costs?

EC\$150 PER MONTH

The care plan is EC\$150 per month, which is EC\$1,800 per year. It starts on launch day and includes:

- Website hosting and uptime monitoring
- Security updates, SSL certificate renewals and regular backups
- Small content updates such as rates, photos and tour details
- A monthly report on visitors, bookings and top pages
- Priority support by WhatsApp and email

The only other running cost is the domain name (for example, radixgrenada.com), which is registered in Wayne's name and billed yearly at cost.

Does it include Google Maps and location integration?

YES, INCLUDED

- An embedded Google Map on the Contact page showing Wayne's base and the areas he serves.
- One-tap "Get directions" links that open Google Maps or Apple Maps on the visitor's phone.
- Pickup locations in the booking form, including the airport, cruise port, hotels and villas.
- Setup of Wayne's Google Business Profile, linked to the website, so he appears on Google Maps searches.

Does it include social media integration?

YES, INCLUDED

- Links to Wayne's Facebook, Instagram and TikTok in the header and footer.
- Rich link previews, so when the site is shared on WhatsApp, Facebook or X it shows a photo, title and description.
- WhatsApp chat buttons across the site, with booking details pre-filled.
- An Instagram or Facebook feed on the homepage, if Wayne would like one.

How is the website kept secure?

BUILT IN, AND MAINTAINED MONTHLY

- HTTPS encryption on every page, shown by the padlock in the browser.
- Spam protection on all booking and contact forms.
- No card details stored on the website. If online deposits are added, payments are handled by a secure payment gateway.
- Regular backups, security updates and monitoring through the care plan.
- Wayne owns his domain, content and website files, with access handed over at launch.

What does SEO integration include?

YES, INCLUDED

- Page titles and descriptions written around searches such as "Grenada airport taxi", "island tours Grenada" and "car rental Grenada".
- Local business data (schema.org) that tells Google about Wayne's services, service area and contact details.
- A sitemap and robots file, with the site submitted to Google Search Console.
- Descriptive photo text, a clean heading structure and fast loading, all of which help rankings.
- Google Business Profile setup, the single biggest factor for appearing in local searches.

These SEO foundations are already built into the demo website.

05 · INVESTMENT

Clear, fixed pricing

All prices are in Eastern Caribbean dollars (XCD).

ITEM	DETAILS	AMOUNT
Website build	Design, development, all features and integrations above, testing, launch and training. All labour included.	EC\$3,200 one-time
Care plan	Hosting, security, backups, small updates, monthly report and support	EC\$150 per month
Care plan, yearly	12 months at EC\$150	EC\$1,800 per year
First-year total	Build plus 12 months of care	EC\$5,000

Payment terms

MILESTONE	WHEN	AMOUNT
Deposit (50%)	On acceptance, to reserve the start date	EC\$1,600
Final payment (50%)	At launch, before the site goes live on Wayne's domain	EC\$1,600
Care plan	Monthly from launch. Cancel anytime with 30 days' written notice.	EC\$150 / month

Third-party costs, billed at cost

- Domain name registration and yearly renewal, registered in Wayne's name
- Payment gateway transaction fees, only if online deposits are added
- Professional photography, only if requested

Live in six weeks

The timeline starts once the deposit is received and depends on how quickly content and photos arrive.

Week 1

08 · ACCEPTANCE

Next steps

1. Review this proposal and the live demo.
2. Sign below, or accept by email or WhatsApp.
3. Pay the 50% deposit of EC\$1,600 to reserve the start date.
4. We hold the kick-off call in the first week and launch in six weeks.

By signing, both parties agree to the scope, pricing and payment terms set out in this proposal. Wayne Radix owns the website, its content and the domain once the build fee is paid in full.
